

Report 2

Student:	
Project: Power Amplifier Design	
First Marker:	Second Marker:
Date:	Date:

Results of Simulations and Measurements on the Prototype	mark
No results presented	0
Simulated results presented	2
Measured results presented	4
Simulated and measured results presented	6

Assessment of Project Outcomes Against Specifications	
No submission	0
Minimal assessment	1
Reasonable assessment but lacking in places	2.5
Good assessment	4

Reflective assessment of skills acquired	
No reflective assessment	0
Superficial reflection - not an honest appraisal	2
Good reflection but incomplete identification of strengths and weaknesses	4
Thorough reflection on successes and identification of needs	6

Circuit Diagram	
No circuit diagram	0
A poorly drawn or incompletely labeled diagram	2
A clearly drawn diagram labelled well enough to allow others to build the circuit	4
TOTAL	

Please tick or circle the mark you feel is most appropriate for each section.
