

Examination Feedback for EEE6021 – Energy Utilisation
Autumn Semester 2012-13

Feedback for EEE6021 Session: 2012-2013

Feedback: Please write simple statements about how well students addressed the exam paper in general and each individual question in particular including common problems/mistakes and areas of concern in the boxes provided below. Increase row height if necessary.

General Comments:

Question 1:

The quality of answers to descriptive parts of the question by some students is very poor. Some hand writing is barely readable. Some students also have difficulty to perform simple numerical calculations.

Question 2:

Need to provide concise answer to this question and do not include irrelevant materials.

Question 3:

The performance of students in this question is similar to previous years.

Question 4:

Most students didn't answer or attempt the last part of this question, which requires a very good in-depth understanding of the subject. However, some students did successfully attempt this part and demonstrated a good understanding of the subject.
