

PROGRAMME SUMMARY - FREE TEXT ANSWERS - Foundation Year

Autumn 2011 / 2012

Survey: EEE Feedback - Autumn 2011

Please tell us what you think about the use of clickers in your lectures

Responses:

- it is overall good
- i have no idea what that is

Please give a suggestion on how the programme could be improved

Responses:

- More examples and more interactive teaching especially in maths 2.
- The lecturer for MAS002 did not teach me as well as the MAS001 lecturer. I found his style of teaching boring, and because he only read directly from the lecture notes it has meant I have no more supporting notes to aid me in my exams. Completing a mock paper has shown up this issue, as I only got 20%.

Chemistry is taught well, but has far too much content and not enough set homework to keep up the learning. I found this module incredibly difficult, and feel that it may jeopardise my place on the first year of the course. Plus, it is completely irrelevant to any other study I have done before other than GCSE Chemistry, so I found this amount of content in the time scale to be ridiculous. I feel that the course needs less content and more time spent on the subjects left, as being exposed to a topic once is not enough, and is reflected in my grades. the highest score I have had in a test is 48%, and the lowest 20%.

I also feel that Chemistry should be made optional for EEE students, or to be replaced with a more appropriate foundation Electronics module.

- more confident/experienced lecturer for MAS002
- improve everything

Please nominate a member of staff who you feel has been particularly helpful for your learning this semester for a learning and teaching award. This could be a lecturer, a lab technician or any member of staff

Responses:

- Sam Marsh

- Simon Gray
- Sam Marsh
- all was good teatchers
- sam marsh

Please comment on what, if anything, would improve your sense of belonging to an academic learning community

Responses:

- it is fine
- bouncy castle

What do you think would improve sessions with your personal tutor?

Responses:

- All good, I can;t think of anything!
- Smaller tutor groups.
- nothing
- be useful

Please comment on what was good about the programme.

Responses:

- Good standard of lecturers provided
- Well structured format
- MAS001 and Physics are both brilliant modules and are set at a manageable pace, with good lecturers
- MAS001 teaching supported by excellent notes available on mole.
- every thing was very good the teaching and couerse materiales
- nothing
