### Programme Summary - Free Text Answers - Foundation Yr

Suggestions for any significant changes you would recommend

#### Responses:

-

Please nominate a member of staff who you feel has been particularly helpful for your learning this semester for a learning and teaching award. This could be a lecturer, a lab technician or any member of staff.

#### Responses:

- Mr Simon Gray
- LECTURER
- Jule Hyde
- Sam Marsh
- simon grey

Please comment on what was good about the programme.

#### Responses:

- All the modules were good.
- The programme was good enough to be prepared for any engineering and science subjects. Three main subjects such as physics, maths and chemistry were also important to measure your ability for future course.
- Helpful lectures
- Organisation, teaching, lecture notes

Please give a suggestion on how the programme could be improved.

#### Responses:

- I think the 9 am classes should be stopped.
- there should be more laboratory lessons.
- if there was a break mid-week in order to give chance to students study half-way the things that was given previous , and not revised the huge amount of everything in weekends!
- improve the online facilities slightly and add chemistry past exam solutions
